

Annie's Project in Maryland and Delaware

Annie's Project

Annie was a woman who grew up in a small town in Northern Illinois. Her goal was to marry a farmer and she did. Annie spent her lifetime learning how to be an involved business partner with her farm husband. Together they did great things, but it wasn't easy. This is Annie's Project – to take her experiences and share it with farm women living and working in a complex business.

Objectives

Annie's project is designed to empower farmwomen to manage information systems used in critical decision making processes and to build local networks throughout the state. The target audience is farmwomen with a passion for business and involvement in the farm operation.

*Project Topics cover the five areas of Risk Management –
Production, Market, Financial, Legal Risk, Human Resources.*

This includes topics such as estate planning, farm insurance, crop insurance, marketing, business planning, two evenings in the computer lab using Excel and QuickBooks and much more!

Class Dates	Washington County Dates	
*Washington County Dates differ	10:00am - 1:30pm	
Wednesdays 6-9pm	01/14/10
