Funding for this project was provided by the Northeast Center for Risk Management Education and the USDA Cooperative State Research, Education and Extension Service. "This material is based upon work supported by USDA/CREES under award number 2007-49200-03888."

Request for accommodations related to disability should be made two weeks prior to the event.

"It is the policy of the University of Maryland Extension and the University of Delaware Extension, that no person shall be subjected to discrimination on the grounds of race, color, gender, religion, national origin, sexual orientation, age, marital or parental status, or disability."

Annie's Project in Maryland & Delaware

Classes for 2010 are at a
location near you!

What is Annie's Project

Annie was a woman who grew up in a small town in Northern Illinois. Her goal was to marry a farmer and she did. Annie spent her lifetime learning how to be an involved business partner with her farm husband. Together they did great things, but it wasn't easy. This is Annie's Project – to take her experiences and share them with farm women living and working in a complex business.

Objectives

Annie's project is designed to empower farm women to manage information systems used in critical decision making processes and to build local networks throughout the state. The target audience is farm women with a passion for business and involvement in the farm operation.

Project Topics cover the five areas of Risk Management – Production, Market, Financial, Legal Risk, Human Resources.
